

Snow Blower

NEVER operate a snow blower unless you have been authorized by your manager! Reading this material does not authorize you to use a snow blower. See your manager for authorization and to receive the proper training on how to use a snow blower safely.

Snow Blower Safety Tips:

- If the blower jams, turn it off.
- Keep your hands away from the moving parts.
- Do not drink alcohol and use the snow blower.
- Be aware of the carbon monoxide risk of running a snow blower in an enclosed space.
- Refuel your snow blower when it is off, never when it is running.
- **Don't Force It.** Let the snow blower do the work, and try not to wrestle with it. Let it do the work and don't try to make it do more.
